PROFESSIONAL SUMMARY

I am a 21-year-old developer and data enthusiast based in Bangalore, India, with a BBA in Data & Finance from St. Joseph's University. I combine a strong business foundation with technical expertise in AI, Data Science, and software development to build innovative solutions like AI-powered platforms and language learning tools. I am currently learning Japanese and hold a JLPT N5 certification, and I am actively preparing for the JLPT N3 (Japanese Language Proficiency Test) in 2026.

EXPERIENCE

Solo Developer | Independent Project

Talkytoki | 2025

- Designed and built Talkytoki — an AI-powered browser extension for immersive language learning.
- Features hover-to-learn dictionary, JLPT-tagged vocabulary saving, dual subtitles, and an AI persona that lets users converse with video creators.
- Directly motivated by my own JLPT N5 certification journey.

Hackathon Winner (Top 5) | Team KERDS

Cardano Asia IBW 2025 | 2025

- Built WorkOrbit from scratch in a 30-hour sprint, winning the hackathon.
- Designed and implemented a decentralized AI workflow agent integrating LLMs, FastAPI, Kafka, IPFS, and Plutus smart contracts on the Cardano blockchain.
- Delivered a fully functional demo 30 minutes before the deadline.

R&D Intern

Elior India | 2024

- Conducted extensive market research and competitive industry analysis to support strategic business decisions.
- Assisted in data collection, cleaning, and synthesis for actionable business insights.
- Contributed to innovation and service development projects, applying data-driven thinking to real-world operational challenges.

Sales & Content Creator

Legacy Closet India | 2023

- Created and edited promotional video content for anime merchandise, driving brand awareness across social platforms.
- Managed end-to-end social media marketing campaigns, directly contributing to sales growth and customer engagement.
- Developed skills in visual storytelling, audience targeting, and content strategy.

PROJECTS

- **Talkytoki** (*AI · Language Learning · Browser Extension*): AI-powered browser extension for immersive Japanese learning. Hover-to-learn dictionary, JLPT-tagged vocabulary, and an AI persona. *Tools: React, AI/LLM, Chrome Extension, YouTube API, JLPT.*
- **Stock Prediction** (*Data Science · Time Series · R*): Rigorous time-series forecasting of Tata Steel stock prices using ARIMA, Moving Average, and Exponential Smoothing models. *Tools: R, ARIMA, ggplot2.*
- **WorkOrbit** (*Hackathon Winner · AI · Blockchain*): Decentralized AI workflow agent automating task assignments and smart contract completion verifications. *Tools: AI/LLM, Cardano Blockchain, FastAPI, Kafka.*
- **Smart Home Assistive System** (*IoT · Computer Vision · AI*): Published research on an assistive smart home system enabling individuals with cerebral palsy/muscular dystrophy to control appliances via gestures. *Tools: ESP32, OpenCV, MediaPipe, Voice AI, Custom PCB.*
- **Parallel Universe** (*Brand Design · Creative Direction*): Personal streetwear brand concept fusing Indian street culture, anime, and JDM car culture into a wearable visual identity.

SKILLS & CERTIFICATIONS

- **Data & AI:** Python, SQL, Machine Learning, Data Analysis, Market Research | *Certifications: OCI 2025 AI Foundations Associate, OCI 2025 Data Science Professional*
- **Software Development & Engineering:** TypeScript, React, Node.js, Python, R, FastAPI, Kafka, Three.js, AI/LLM, Computer Vision (OpenCV, MediaPipe), IoT (ESP32), Data Engineering (ARIMA, ggplot2), Blockchain (Cardano, Plutus, Web3)

EDUCATION

St. Joseph's University

BBA Data & Finance | 2022–2025

- Graduated with a specialization in Data & Finance.
- Completed a university-certified Data Science & Analytics course.
- Built a strong foundation in business administration, statistical analysis, and financial modeling.
